# Uniden®

## SMART MIC TECHNOLOGY

- 3-Way Smart Key
- Built-in Dynamic Speaker
- One Touch Control

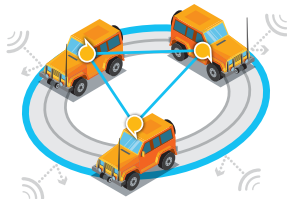

## BUILT-IN Dynamic Speaker

Forward Facing Speaker Offering Optimum Volume and Sound Clarity

## Uninterrupted Communication

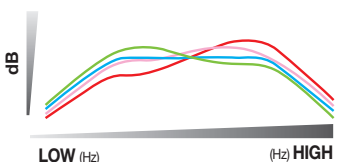

Master Scan® allows a group of users to seamlessly communicate on not just one channel but a group of channels. If your current channel is interrupted by others outside of the group, all radios in your group will automatically hop to a new clear channel allowing seamless uninterrupted communication to continue.

## Voice Enhancer

Choose from 4 different audio settings (Normal, Bass, Midrange and High) to provide a natural Voice Enhancer for super clarity and performance.

**Only Uniden can bring you this technology – Voice Enhancer.**

OFF Normal | L1 (Bass) | L2 (Midrange) | L3 (High)

**80 UHF Narrowband Channels\*:** Choose from up to 80 Frequencies to transmit and receive messages.

**5W Maximum TX Output Power  
Police and Fire Frequencies\***

**Built-in AVS Circuitry:**

The Automatic Volume Stabiliser detects Narrowband and Wideband Transmissions and automatically adjusts incoming audio to comparable levels.

**Voice Scramble Function:** Enabling private communication by scrambling the voice signal, preventing other users without special descrambling equipment from understanding the conversation.

**Master Scan®**

**Voice Enhancer:** Choose from 4 different audio settings (Normal, Bass, Midrange and High) to provide a natural Voice Enhancer for super clarity and performance.

**Smart Key:** Allows you to toggle between Instant Channel, Call Tone or Equaliser.

**10 Different Call Tones**

**100 Extra Receive Only Channels (400-520MHz in 12.5kHz steps):\*** Select from 9600 Receivable Channels.

**BearCat Engine:®** Using Uniden's world recognised BearCat scanning technology, you can scan unencrypted analogue UHF Police/Fire & Ambulance frequencies, UHF CB channels and user programmable channels at the same time. Triple watch, open scan and group scan give seamless communication across all the channels. Close Call provides RF capture of strong/close UHF signals.
