GPS Tracker & Geo-Fence

Scout 2500

Peace of mind, knowing your pet is safe.

Millions of pets get lost each year and cats & dogs can be true escape artists. The Motorola Scout 2500 pet GPS tracker provides you ultimate peace of mind, knowing where your beloved pet is about. With Scout 2500 you will always see where your dog or cat is located, safely around the house or patrolling the streets. Set a Geo fence for him or her and get alerts if he leaves the defined perimeter. The device is small, durable and easy to use. Manage multiple pets at the same time via the hubble app and customize their profiles with photos and data. Thanks to its extra small size, the GPS unit fits perfectly for both cats and dogs. The hubble app is available for downloading via the Apple iOS store or Google playstore and can be used on compatible smartphones, tablets and even via PC.

Features

GPS Locating: no more lost pets

GPS Geo Fencing: know if your dog wanders off

Features

- **GPS tracking (GPS/GPRS):** *Never lose touch with your dog where ever he may wonder.* The Motorola pet GPS system is reliable and accurate for tracking of your pet's whereabouts. Find the pet's location on a map via the Hubble app. Enjoy unlimited range thanks to GPRS technology. Product includes 1 year Free tracking without extra costs (fair use Policy applicable). Subscription plan available after 1 year.
- **GPS geo-fencing:** *Set a virtual boundary.* Set a virtual boundary on a map using the Hubble app and receive escape notifications as soon as your pet passes the virtual geo-fence.
- **Temperature alerts:** *Receive notifications when its too hot or cold.* The built-in sensor measures room temperature and gives a notification when its too hot or cold.
- **Extra small and waterproof design.** *Let your pet play freely in or near water.* The collar has a shock- and waterproof design (IP67) to protect the device in outside weather conditions, even up to 1metre under water. The small design is suitable for cats and dogs.
- **Extra long battery life.** *Smart sensors enable to go into energy saving mode.* As soon as you start tracking, the devise goes out of sleeping mode and starts to connect to the GPS signals. Up to 5 days battery life on average usage and easily rechargeable via micro-USB.
- **1 year Free Service Plan.** 1st year: free GPS tracking service based on Fair Use policy which includes 150 pings per 30 days. When 80% of the pings is reached, there is a warning to user via the Hubble app. 2nd and following years: 19,99 EUR per year.
