Range Brochure PDF 

Operating Manual PDF 

A first for New Zealand.

This radar detector promotes driver safety and comfort. It's revolutionary anti-falsing database automatically detects and stores the location of false alerts. Therefore, the more you drive, the number of false alerts decreases. It is capable of warning you when you are in the range of microwave hawk, eagle, stalker radars and speed cameras. No alerts will sound under 20km/h - perfect in busy shopping centres or at traffic lights.

GPS features include: electronic compass; direction to destination arrow. GPS displays include: latitude & longitude; top/average speed; ETA; distance to go; elevation.

The ultimate in radar detection.

Suggested Retail: RRP \$499.95
