- Operating Manual PDF 

The UBCD536-PT is a highly engineered digital scanner with pre-programmed channels. It scans APCO 25 Phase 1 and Phase 2, Motorola, EDACS and LTR trunked systems, as well as conventional analog. This flexible scanner will suit your everyday needs and maximising your capabilities wherever you go.

The UBCD536-PT features "Close Call RF Capture Technology" which automatically "Listens" for any nearby or "close" transmissions and once they occur the scanner immediately tunes in to this frequency. Ideal for use at events or locations when the transmission is unknown, The UBCD536-PT is a state-of-the-art digital scanner radio with Trunk Tracker V and automatic scanning.

The Uniden UBCD536-PT TrunkTracker V Desktop Scanner offers state-of-the-art features ensuring it meets the specific and technical requirements of the CFA brigade. The intuitive UBCD536-PT is designed to be future-proof.

The easy-to-use digital handheld scanner is pre-programmed with the current CFA and Department of Environment, Land, Water & Planning (DELWP) radio channel plan, with the added benefit of receiving analogue and digital radio traffic.

Available exclusively through Pacific Telecommunications
